

Attn: the Immigration
Detention Reform Bill

Dear Sir/Madam,

I would like to submit that the detention values under review apply also to Christmas Island as well as mainland Australia.

Also that the Immigration Detention Reform Bill should state that children should not be detained in any kind of secured immigration facility.

Would it be possible that the Immigration Detention Reform Bill specify adequate measures for independent, timely review of a person's detention as the Bill in its present form does not include review measures?

Thanking you,
Yours sincerely, Bill ...
