

CLIMATE RESILIENCE AND SUSTAINABILITY STRATEGY 2023–2033

INSPIRED BY LIFESTYLE.
DRIVEN BY OPPORTUNITY.

We address the challenge of climate change through practical and sensible solutions that deliver climate resilience.*

OUR
OUTCOMES

Our built environment is resilient to the impacts of climate change.

Our ecosystems are resilient to the impacts of climate change.

Our community is climate-ready and resilient.

We embrace sustainable urban planning to reduce city-wide greenhouse gas emissions.

We partner with local businesses to reduce their greenhouse emissions.

The Gold Coast is recognised as a leader in green industries and research and innovation.

City of Gold Coast operations are powered by renewable energy and zero emission vehicles.

Greenhouse gas emissions minimised in public procurement, capital works and renewal projects.

We manage our resources for a sustainable future.*

OUR MEASURES
OF SUCCESS

- Nature based solutions as part of our built environment
- Permanent protection of land in strategic areas
- Community climate literacy.

- City-wide greenhouse gas emissions*
- Local businesses' greenhouse gas emissions
- Successful grants and funding applications.

- City operational greenhouse gas emissions
- Third party greenhouse gas emissions
- Resource recovery and reuse – waste and wastewater.*
