

Senate Finance and Public Administration Committee

I am writing this submission in regards of our loss of Jousky Leases which we purchased, being made into National Parks. If that alone was not a great loss to our income,

Now lost upon Monotonium has locked up our freehold land leaving us only a ( $\frac{1}{3}$ ) one third to improve the other portion of our property will grow unwanted trees and hantana cutting our carrying capacity to one third.

Also it has devalued our land by one hundred thousand dollars. We chose to purchase land and not enter into superfunds. As we are both reaching sixty years of age with these new ruling regarding our land we will not be able to run enough cattle to keep us through our retirement

yours faithfully
