

Dear Senate Committee

Defence Force Service "STANDS ALONE" as all its administration must and that alone should suffice not to merge Military Superannuation. Should further reason be required then I ask you to note and research

The current Queensland Treasurer through investment lost \$3.4 Billion of the Queensland public service superannuation

The tragedy of the NSW and Victorian Police Superannuation funds speaks for itself

The intended merger is not my will as a constituent and I request you vote against any intended merger

I am 65 years of age this year and need this invasion into my life like I need a hole in my head

I further request my right as an Ex Serviceman, that when this is put to the vote, that all superannuation members be sent a list of those who voted for and those who voted against. Thank you

Len Wallace
