

---

To whom it may concern,

Just making a submission in support of the bill to make sure unborn children are given the most basic of human rights which is life! Whether one is pro life or not, I cannot understand why aborting a baby who is not of the desired sex should come under Medicare benefits. It has nothing to do with a medical procedure. Why should taxpayers be funding decisions based purely on cultural or personal preference. The government should be working to reduce abortions not trying to increase them!

Regards

Frances Azzopardi
