

## **headspace National response to question on notice from the Joint Select Committee on Social Media and Australian Society**

**Do you, or does your organisation, have any financial or other form of commercial relationship with any social media platform, technology platform, gaming platform or any similar such entity?**

As for most organisations conducting business, headspace National pays for a large number of technology services – e.g. desktop technology; finance; payroll; marketing; fundraising; HR – to conduct its business. From time to time, headspace National has engaged with social media and gaming platforms to reach more young people and families, to raise awareness of its services and resources, and to raise funds for our vital work. headspace National cannot rule out whether it has received discounts, in-kind support or similar.
