

My name is Zane Howard of I am writting  
to stongly object the the proposed bill inthat it seems unfair to me to have 3 directors from the ACTU  
and only 2 from CDF. I believe that this would place the defence force at a distinct disadvantage when  
it comes to any votes. I also object to the military superannuation schemes being merged with civilian  
schemes. Does the government not understand the significant diffrence in a soldiers life to that of a  
civilian (who can choose wherethey work and live). A soldier puts his life in the governments hands.  
He is told where he will live and work, vertually where his children will go to school, he puts his life at  
risk at the whims of the government. I believe that the military schemes should be directed by people  
who understand military issues and not some ACTU nob who does not understand or care about  
military issues. signed Zane. A. Howard. 5 Mar 2010
