

To: Committee Secretariat:

7 September 2021

Senate Finance and Public Administration Committees

Submission regarding:

**Commonwealth Electoral Amendment
(Integrity of Elections) Bill 2021**

**In reference to: Schedule 2—Voter identification
Commonwealth Electoral Act 1918**

I support the amendment to require voters to present a form of acceptable identification in order to be issued with an ordinary pre-poll or election day vote.

A vote is far too important and should have at least the same security and identification requirements as many other transactions that require positive identification of the person making the transaction.

Please take my views into consideration when deciding on this amendment.

Sincerely thank you,

Axel Brendel.
