

To whom it may concern

I would like to have it noted that I disapprove of the current bill Liberal Senator Chris Back is trying to get through the Senate on imposing criminal penalties for those who record malicious acts of animal cruelty without reporting it within one day.

Having a greyhound myself and being involved in being circus performers to account in the UK I know how important it is to build up a case because the penalties for animal cruelty are lenient enough without getting a full case behind the conviction first.

Please acknowledge this email and keep me informed of what you intend to do as an Australian voter.

Regards, Donna McDowall
