

NORTHERN TERRITORY RIGHTS

Dear Committee of Senators,

AS regards the “Ensuring Northern Territory Rights Bill 2021”, as a citizen of Australia, I would like to make a short but impassioned plea that you pass this bill, with or without inclusion of the ACT as well.

When the “Kevin Andrews Repeal Euthanasia Laws Act 1997” was passed, I was then and still am, appalled at such a blatant and monumental failure of the separation of church and state. Looking back, the passing of that Act was a failure of justice, especially “natural justice” and I am hoping that now this injustice (and shameful episode) can be put right.

Yours Sincerely

Tony Krins
