

**Len Mills**

**We wish to support the Hon Judi Moylan MP campaign in trying to reduce the noise level from Perth airport.**

**Having lived for the last 40 years close to the Flight path the noise level has increased to a point that it interferes**

**with our sleep pattern and subsequently life style and health. Realizing the enormity of the problem some thought**

**should be given to a more evenly distribution of aircraft flight pattern. We would welcome any comments you make on this subject**

**Regards Len Mills**
