Submission on Forced Adoptions

I am writing to say I saw a show about forced adoption, on the 23rd May 23, 2011, low and behold I was a forgotten Australia and I was forced to adopt my child which was done through the church Of St Joseph , I went to the in Brisbane, then my real brother came and got me, and put me up at someone house, due to not having a mother around, when I got kicked out of her home after five years living with her after the orphanage, she wanted nothing to do with me again, I had listen to the nuns, of St Joseph's in they send where to go which was the Holy cross laundry for unwed mothers, I had the baby at the royal Brisbane hospital had a C=Section nearly died, signed some papers, this is all coming back to me after seeing the show, and adopted the baby out, told she had died, she found me when she turned 22, she was born on the May 1970 at the royal Brisbane hospital, had a very bad time after that , walked the streets had nowhere to go or no to turn to, this baby I was told died, but she is a live and thinks I am a slut and all the names under the sun, if I haven't being through enough, this is wrong and now I need it to be fixed. Just like the I had assistance to help me with the forgotten Australian as this affected me for a life time, and no support or connection or assistances at the time.
