Dear Secretary

Broadcasting Legislation Amendment (2021 Measures) Bill No.1 2021

We refer to the legislation above and welcome the opportunity to make a submission to the Committee's inquiry into the Bill. Our comments are restricted to Schedule 1 of the Bill, relating to the New Eligible Drama Expenditure (NEDE) Scheme for subscription television.

Ambience Entertainment (founded in 1998) produces feature films, television dramas, comedies, game shows, factual entertainment and children's live action. On average a television series employs 60 people for approximately 3 months and a film employs 300+ (including post production). The highly experienced team creates, finances, produces and distributes entertainment content that is cutting edge and of the highest quality. This includes the award-winning adaptation of 'Tomorrow When the War Began' and recent children's comedy series 'Drop Dead Weird' and 'Random and Whacky'. Our permanent staff are based in Artarmon in the North Sydney electorate for 5 years.

Ambience Entertainment does not support Schedule 1 of the Bill and the halving of Foxtel's relatively modest requirement to invest in Australian drama.

The halving of the obligation to spend 10% of drama channels' program budgets on Australian drama will cause substantial harm to Foxtel customer's access to Australian stories and will damage the local independent production sector.

The scheme has generated such notable and award-winning titles as *Top of the Lake*, *Hacksaw Ridge*, *Lion*, *Love My Way*, *Wentworth*, *Devil's Playground*, *Deadline Gallipoli*, *Fight Season*, *Mr Inbetween*, *Picnic at Hanging Rock*, *Secret City* and *Tangle*.

We are very concerned that a reduction in the obligation will almost certainly result in less investment in Australian drama, a reduction in local employment and reduced cultural outcomes for Australian viewers of subscription television.

We note that the Government is currently considering measures to ensure popular new streaming services make a proportionate contribution to Australian content through its Media Reform Green Paper process.

International Creators of Family Entertainment

This is a critical decision for the future of Australian screen culture and the comparative balancing of regulation across different platforms.

We submit that if the NEDE scheme is to be reviewed, its future should be determined with reference to the final decision of the Green Paper process regarding streaming platform regulation. At that time the scheme should be subject to a thorough review that considers whether it should be extended to cover other genres of Australian programming which are vulnerable to market failure.

We are also concerned that the Bill proposes to cancel the existing requirement to make-up any shortfall in expenditure that occurred before 1 July 2021. Given the generous deregulation included in the Bill, this seems excessive and all previous regulatory obligations should be required to be honoured.

Thank you again for the opportunity to provide a submission.

Yours sincerely

Matthew Street
Managing Director
