Committee: Senate Finance and Public Administration Legislation Committee

Inquiry: Investment Funds Legislation Amendment Bill 2021

Hearing date: 28 September 2021

Reference: Hansard, page 44

Senator AYRES: Would you be able to provide on notice a schedule for the last four years of the FOI applications and how many in the agency's assessment would fall under the terms of the exemption?

Senator AYRES: Would you be able to tell me on notice over the last four years how many of those were asset valuation type issues, how many were investment related and how many applied generally to the activities of the agency? Does that make sense?

Year	Asset valuation related	Other investment related	General (non-investment) activities
2020-21	8	1	4
2019-20	5	1	2
2018-19	0	2	0
2017-18	3	2	3

All asset valuation related and other investment related requests would fall under the terms of the exemption proposed in the *Investment Funds Legislation Amendment Bill 2021*.
