Dear Secretary

ADDENDUM TO MULTICULTURALISM DEBATE

This is a preface addendum of my earlier submission dated 28 April 2017. Please find attached a very well annotated research work entitled **The War on White Australia: A Case Study in the Culture of Critique** by Mr Brenton Sanderson in five parts. This authoritative insightful study is taken from a website called The Occidental Observer and every credit for this must be attributed to the distinguished writer aforementioned.

This is of utmost ground-breaking dossier addition to the deliberations of the Select Committee on Strengthening Multiculturalism in the coming weeks. This is required reading, not just for all the Parliamentary members involved in this inquiry, but for the whole intelligentsia population in Australia.

Whenever there is a communist revolution in any country, the first priority of the enemy is to execute all the millions intelligentsia of the independent nation in order to reform it to fit under a brutal mass-murder communist takeover. Prevent that by publishing this revelation.

I strongly recommend this committee invite Mr Brenton Sanderson to one of the senate public hearings scheduled for further elucidations on this much hidden Australia race relations intrigue history secrets.

Through public acquaintance with this monumental work, a breakthrough watershed new beginning of a stronger viable Australia Nation beacons in the horizon. Beware of the enemies of Australia attempt to censor and suppress this vital highest level national security disclosure for the public good.

Yours faithfully

Ivan Chan
