Dear Mr Swan,

Re: ASIC

I write to you to please ask as an Australian taxpayer and voter that I please get the contact details of who I should contact so my thoughts and concerns can please be considered when the government next considers a funding request from ASIC. I believe ASIC are failing in their duties and that their funding should be reviewed or they should have new performance measures introduced.

I believe as a taxpayer and voter that my thoughts and concerns should be given due consideration.

I look forward to your reply and also to making a submission about ASIC and my thoughts being considered when the government looks at the next ASIC funding request.

Yours Sincerely,

Stephen Koci

Dear Mr Bowen,

Re: ASIC

I write as a voter and a taxpayer and a investor and I heard you are thinking of giving ASIC more powers and I write as I would like me concerns with ASIC heard before you make any decisions as I think ASIC fail investors every day and a waste of taxpayers money and have no ideal.

Please let me know if you will listen to my views and concerns and I will send them to you. At the very least ASIC should have performance indicators that they have to meet or get their funding cut.

I have written to the Treasurer about who to contact about ASIC on the 16th of June and the 29th July 2009 (copies of letters attached) and hope you are the man to contact.

Please reply by the 15th of September 2009 or I will write again.

Yours Sincerely

Subject: Letters

Dear Mr Bowen,

I refer to my unanswered letter dated 28th August 2009 and my email dated the 18th September 2009 and the phonenumber from your office on the 21th September 2009 that advised me that a reponse would be coming.

Now it is nearly 2 months since that phone call and I have heard nothing. I think this is a joke and is very unprofessional, all I wanted was to ask if I could make a submission about ASIC, that simply how long does it take to answer that simple question? If I didn't know better I would think you didn't want me to make a submission? Is that true? I'm a professional investor and I have delt with ASIC and I think they are a disgrace and I demand that my voice is heard and respected. 3 months to answer a simple letter is stupid and shows no respect.
