

WHY? That's all I ask, WHY?

Im not really sure WHY? The Government wont offer a fair and equitable agreement. Is my Family not worth it?

Im not asking for anything outrageous. I would of even just excepted a pay freeze if the government could not afford a rise. All I have ever asked for is a secure job for me to rely on as I have a family that means the world to me. Im not sure why the Government want to strip our conditions as I believe that all public servants work hard. All we want is a fair deal a rise that reflects cost of living and to keep our conditions. Why can polotitians SES member who are on way more than an average wage get an increase of over 7% when we just want to secure the same conditions and a fair wage rise.??

WHY?
