
To whom it may concern,

I am writing in support of the Bill that would remove Medicare funding for sex-selection abortions. The reason for this is quite simple:

1. Aborting an unborn child solely on the basis of gender is not a medical procedure, is is discrimination. We have fought, as a nation, for gender equality for such a long period of time; why let this slip away because of a personal preference of a child's sex?
2. Medicare funding should be limited to what Medicare was introduced for - health procedures. Not abortion! Abortion due to personal preference of a baby's sex is not a health procedure; it is personal and thus, as a tax payer, I am strongly against forking up money so that people can kill a child because it's the "wrong sex".
3. We have a large line up of people wanting to adopt children because of unfortunate reasons (i.e. they cannot have children due to physical impairments, etc). These people would do anything for a child - boy or girl. How can we call it humane to murder a child because of its sex?

Please, don't let this continue.

Sincerely,
Frankie Conias
