

Senate Inquiry – Incidents at Manus OPC on 16-18 February 2014

Request 2 (d)

A breakdown of the population at Manus Island Detention Centre at the time of the incident 16-18 February 2014, by name, nationality, age, gender and status, namely:

- Awaiting an initial RSD assessment
- Received a positive RSD assessment
- Refused refugee status
- Held pending removal
- Other (please specify)

Response 2 (d)

At the time of the incident on 16-18 February 2014, the nominal role indicates that there were 1 338 single male adult transferees at the Manus Offshore Processing Centre, aged between 18 and 61 years of age. Please see attached redacted version of the nominal roll for further information. Names, date of birth and Boat IDs have been redacted for privacy reasons. Nationality groups of fewer than 10 individuals have been de-identified due to privacy reasons.

Information related to the processing status of individual transferees is a matter for the PNG Government and as such would be inappropriate for the department to comment on individual circumstances. However, the department can advise the following Refugee Determination (RD) information as at 18 February 2014:

Initial interview completed	853*
Awaiting initial interview	485
Awaiting an initial RD assessment	43
Received a positive RD assessment	0
Refused refugee status	0
Held pending removal	0
Other	0

*Of the 853, 289 transferees had received individual protection claim advice and assistance (CAPs) interviews to articulate and lodge a protection claim. Of the 289, 43 transferees had had a refugee determination (RD) interview to assess their protection claim.
