

THE SENATE ENQUIRY INTO FORCED ADOPTIONS

To

The Minister
for Child Safety
D.O.C.S.

(...)

Tues.

You have no respect for
Human beings who pay your way. (...)

There have been so many ministers since
I have began writing to you begging for
help, each one, knowing my case and
yet you have all ignored my letters, or
replied without helping me.

Your department destroyed my life
and that of my 4 daughters and now
my son. I have asked for an enquiry
into the stealing of my 4 daughters
by 2 men (...)

AND

and a young
black long haired girl with (...)

(...) the day my girls were
stolen and the lies I was told
and have been told by your people
for 48 yrs, Please dont give me
the OUT OF TIME excuse as I have
been writing asking the same Questions
since 1963. Are you waiting for
me to die hoping this case will
go away? It will never go away
while I have children who are
still young and are just the same
as myself (JUSTICE AWARE) and
you know I have never had
justice, I lost everything, I have led
a long lonely life and you
people have ignored me every
inch of the way, I have never
file, I made sure I get (...)
coronary file, and I know what

I was also forced to adopt.

(...)

your department (...)
did to my family and your
governmental department covered my
case up every time I raised the
issue. none of you have the guts
to be honest with me after 48 yrs
so why would anyone trust your
people let alone vote for you.
And I might let you know
I WILL NEVER VOTE AGAIN, your
laws are corrupt with lies deceit
and people doing favours for money
in return, I know as I have
received many letters from those on
the NET who agree with me and have
gone through hell as I have.

I am just at the end of my tether,
I never wanted to believe I couldn't
trust you people with my children,
but hey gee you all say one thing
and do another just to shut me up.
I have never been able to fulfill
my career as a nurse because
of your department I fought every inch
to get my girls back & death
was the tip of my sanity & lost all
concentration to do anything worth
while. I am not stupid as you all
think my brother was
stipendary Magistrate in Brisbane among
others who are very justice aware.
I want an investigation into these
men who stole my children
and left me to die. I await your
reply.
