

Attention Committee Secretary,

I write this letter in regards to air noise in the Hamersley region.

Saturdays & Sundays are supposed to be my days off, apparently not. I have planes flying over my house as late as 12.00 am & as early as 5.30/6.00 am all week including my weekends. Are you tripping if I started a lawnmower at that time my neighbours would be up in arms & rightly so. For starters it is illegal to start machinery until a specific time by council laws. Is the airport above the laws? Do you bash your conscience with dollar bills? This very morning 16th of February 2010 between 5.30 and 6.15 four planes flew overhead. Fair go. Please come and work the hours I have to, look after the kids & sleep at my place for a week, welcome to sleep deprivation. I don't want excuses over this issue I want results.

Regards

SHANE CLIFFORD
