

My name is Wendy Jackson.

I used to be a Full time Entertainer, until my world was turned up side down...due to Lung Cancer, thats when I used to do floor shows and gigs up to 6 times a week....

I'm now and on disability with 1 lung, have trouble breathing when walking.... lots of other probs now but other than that I am ok, as I am one of the very Few... that survive.

I am now 6 years cancer free and I advocate for a group that I run..on FB with over 350 people..that either have Lung Cancer, or are Carers/Family.

Lung Cancer Awareness in Australia (FB Group)

Too many people die with this disease...it is sometimes swift, but most of the time very cruel.

There are Not enough Medical personel to help with Lung cancer... there are very few nurses... and trials we hear about when they are nearly over..or finished.

The people I have in my group ALL Want to Live....

I have become friends with all of the people in the group, and when someone passes it really Breaks my Heart.

We need the Funding for Lung Cancer (The Invisable Cancer)

Please make this possible....

We Need the Compassion...without blame...

We Need Not to Be Judged.

We Need Your Help.

We really need the funding for ALL Cancers with Low Survival Rates..

Thank you

Kind Regards

Wendy Jackson
