To Whom It May Concern

I support container deposit legislation, and the sooner it is implemented, the better. I volunteer locally with a number of community and environmental groups, and drink containers are without question our largest pollutant, taking hours and hours of volunteer time to pick them up for disposal.

Container deposit legislation works successfully elsewhere. It has the added bonus of being a resource recovery program that will eventually be essential for our economic wellbeing.

Sincerely,  
Gillian Collins  
Secretary  
Friends of the Pines Flora and Fauna Reserve
