

The Hon Kevin Andrews MP
Chair of the Human Rights Subcommittee
Joint Standing Committee on Foreign Affairs, Defence and Trade
Parliament House Canberra ACT 2600

12 May 2020

Dear Mr Andrews

**Submission from Falun Gong Practitioners in Australia
To the Inquiry into Magnitsky-style Law to Address Human Rights Abuses
Re: Term of Reference 2**

We are Australian citizens and residents who have personally experienced persecution in China, because of practising Falun Gong (Falun Dafa) spiritual meditation and peacefully upholding the universal principles of Zhen Shan Ren (truthfulness, compassion, forbearance).

We believe that Australia's current sanctions regimes to combat human rights abuses are not effective, especially in dealing with the threat and human right abuses of the Chinese Communist Party (CCP). Over the past 21 years the CCP has expanded its international influence through coercion or threats of trade loss and considers itself beyond the rule of law, and international law.

Creating a Magnitsky-type law in Australia is necessary to directly name and expose the Chinese officials who are responsible for executing the CCP's campaign to eradicate Falun Gong, and for other gross human rights abuses in China. Having Australia join like-minded nations who already have Magnitsky-type laws is the best way to counter the Chinese communist regime's manipulation of the United Nations or international bodies and threats to Australia and other nations to avoid scrutiny of its human rights atrocities.

The threat of the CCP is also being exposed during the current coronavirus crisis, which should be called the "CCP virus" as it has caused such tragic loss of life and damage to economies worldwide because of the CCP's wilful disdain for human life and its hardwired capacity to deceive and cover up the true information.

Enacting a Magnitsky-type law is the first step. The next step will be to correctly interpret Australia's national interest so the Australian government can withstand pressure from the CCP and rightly sanction the officials who are involved in crimes against humanity in persecuting Falun Gong practitioners or complicit in forced organ harvesting atrocities, and prevent them from coming to Australia, or bringing their families or corrupt wealth here.

Exposing such gross human rights abusers and preventing their entry to Australia, not only sends a positive message to the people of China but will also protect Australians from the perverse influence of such corrupt actors.

We provide below our names and a brief description of what happened to us in China. We also agree to have the President of the Falun Dafa Association of Australia Inc. sign this submission on our behalf and for our names to be made public on the Inquiry website.

Signed on behalf the Falun Dafa practitioners listed below.

Dr Lucy Zhao
President of the Falun Dafa Association of Australia Inc
