Submission to the Inquiry into the Fair Work Amendment (Small Business-Penalty Rates Exemption) Bill 2012

I am a casual employee, working as a operator, currently earning around 86000 per year.

I am 59 years old and thru circumstances beyond my control (GFC) are still paying off my home loan.

If penalty rates were abolished...I work weekends, weekdays, night shifts and public holidays. without penalty rates I would not be able to meet my mortgage payments and eat at the same time.

My weekends are important to me because...I volunteer at a dog club on weekends that I am not working. However if I am required to work I choose to do that to make my life a little bit easier.

I urge the committee to keep penalty rates. Without penalty rates I would not be able to meet my mortgage payments and highly likely to default on my home loan. Its time the government looked after those who choose to work for a living and not be a burden on society. If you reduce our wages by abolishing our penalty rates then we pay less tax, cause extreme financial hardship to millions of Australians and force more people onto the dole queue. Look after those who choose to work for a living for a change, maintain our standards of living and support our own for a change. Previous generations have fought for these rights, so let maintain them. My vote at the next election will be decided by the outcome of this issue.
