This is the plea of Children, and the innocent whom cannot beg for mercy.

Are not our governments keepers of law and order, is not this the reason that if a person kicks a pregnant lady in the stomach and her baby dies the person is convicted of a criminal act?

Then why are our hard earned wages funding this criminal act when the mother herself allows doctors to kill babes?

My wife is due in September and we need to fly back to Europe because she is not a citizen, and therefore is not entitled to medicare even though I have paid taxes all my life in this country.

However, medicare subsidizes aborting babies on the basis of gender selection. something is terribly wrong with this picture, don't you think?

Shocked and ashamed citizen.
