

Attn. Geoffrey Dawson .

My name is Michael Cunich of Insulation Innovators PTY LTD. Rick asked me to give you another case how the Rudd government has caused severe hardship on the insulation industry. We have been in this business for nine years now we haven't got one . We have invested all our capital to buy machinery, ie hammer mill, truck, paper, chemical, factory, and leased vehicles. So much for the 50% investment allowance on equipment. What TAX.?? We estimate we have spent over one million dollars only to have the whole industry closed .I could go on. I am sure you know the rest.

Regards Michael Cunich QLD
