

North-Western Agricultural Society Inc.

Thursday 3rd February 2011.

Dear Sir/madam

Re- Senate enquiry into wind farms.

The North Western Ag Society Inc would like to offer our support to Pacific Hydro, who run a wind farm approximately 10klms south of Crystal Brook home of our rural show.

The farm was established about five years ago and in that time Pacific Hydro has become a very supportive and responsible community member.

Pacific Hydro donate money towards the staging of the show plus are present on the day to provide answers to any questions the community have.

We have found them co operative, supportive and are a welcome member of our community.

Yours faithfully

Martin Lloyd-Smith
