

**Subject:** Further Strengthening Newstart Submission.

Dear Madam/Sir,

I am making a Submission regarding the "Further Newstart Strengthening" Bill.

I am AGAINST passing this Bill.

It is important to reject this piece of legislation.

Specifically, Jobseekers need to read and understand what is placed in front of them. If they are coerced into signing a piece of paper by force, without understanding the full impact of what is written, they may not follow the Job Plan to the letter.

They need this time to go away and reflect of what the requirements of the Plan are, ask any questions of the Provider and then sign it on the second meeting with the JobActive Provider.

It is obviously written by those people do not have an understanding of the Unemployed.

Please reject this Legislation.

Yours Sincerely,

Alex Portnoy
