

Hello, I am from mainland China who has been living in Australia for 8 years. As a former victim of the tyranny, I deeply resent the Communist Party's infiltration to the free world.

In order to eliminating the CCP infiltration in Australia I give some suggestions below::

Terminating the Confucius Institute in Australia;

my child's primary school is a public school and a bilingual primary school in Victoria. I really do not want my children to receive any communist propaganda. Unfortunately, the school is a Confucius Institute (Confucius Classroom) in collaboration with the Chinese Communist Party, which has sent two teaching assistants to work full-time in the school. These teachers do not have the educational qualifications of Australia, not even a teaching assistants qualification. Confucius Institute as a propaganda machine of the United Front Work Department of the COMMUNIST Party of China, which has been boycotted by many western countries, but they are still prevalent in Australia (especially Victoria). I am extremely worried about this. These staff members in Australian schools paid by CCP teaching our children directly. The school does not know what they export to the children every day. They are not even been observed by the school. In my few observations in the classroom, they often instill patriotism and build a perfect and beautiful image of China in a euphemistic way. That is the mission of the Communist Party's foreign ministry: to tell good story of China. The history of Communist China is a history of violating basic human rights, depriving people of their freedom of speech, pillaging their private property, and persecuting dissidents that our children should know. Why do we cooperate with China when it has a track record of all kinds of abuses and attempts to deprive the world's people of freedom of speech? Why we do nothing when we know they are making cultural exports contrary to Western values? So I think the Australian parliament must have legislation to ban the Confucius institute and terminating the infiltration of the Chinese communist party in Australia ,

In addition,

Restrict their activities, and reduce the number of all kind of their agents , delegates ,diplomats .

ban use of social medias censored by CCP, Such as :WeChat(a tool of spreading propaganda , disinformation War)

And all kinds of the Chinese civil society organizations/associations backed and conducted by the CCP, because the most likely they are a part of the Chinese communist spy network. They used The Chinese community /residents in Australia and overseas students to collect information of intelligence, and monitor oversea Chinese in

Australia, this is why Chinese who yearn for freedom and advocate freedom of speech live in fear, and dare not to express any opinion against the Communist Party .

On the other hand , I think we need to impose a western values test or interview on the of Australian citizenship application process.

The best way to do it ,is scrutiny their family background , if either they or their family member are a member of CCP, any link to the government. And check their social medias .because many Chinese come to Australia even become Australian citizen and still have no Australian values, is still in a state of brainwashed, they are in sino-Australian interests conflict, not to make any value judgments, always think the west against China, through social media they inciting social discontent among the Chinese community, adding to separate the Chinese and Australian society.

These are my personal Suggestions, which I hope parliament can take into consideration.
