

senate standing committee

i am not happy with airservices australia as they did not consult us or anyone

when they changed the flightpath.i am right under eastwest flightpath.  
have been living for 55 years.planes are getting bigger, noisier and lower  
over my place have several cracks in walls, the ceiling fell down in one  
room

due to vibration.planes go over every 3 mts. property zoned r20 due to  
noise

and can only build one single dwelling due to noise level decreased in value
