Subject: Election matters and our democracy
Date: Monday, 29 August 2022 6:54:48 AM

Hi

I believe you are taking submissions in relation to elections. I would like to express my complete opposition to interfering with donations, particularly the **undemocratic process of allowing unions to donate to political parties but restricting others**. I am strongly against this as it **provides an outright and outrageous bias towards one party over another which is undemocratic**.

I am also **strongly against allowing non-citizens to vote**. It is just plain wrong in my view and I also believe that it **should most definitely require a referendum to make such a change to our democracy**, a fragile democracy that many people fought and died for, to ensure its protection. Many of these non-citizens get sent home as they are criminals – why would this government even be considering it?

Best wishes

Nancy
