To whom it may concern:

We are Korea Unwed Mothers and Families Association and the Dandelions group of first parents of international adoptees in Korea. We support the activities and right claims of Origins, Inc.

All our members want the Australian Government to make a proper and fair investigation about illegal adoptions and related activities done in the past, as well as to listen to the sorrowful voices of unwed mothers.

We hope the Australian government will make a firm and just decision about the illegal and unethical practices inflicted on unwed mothers over the years.

We all are interested in the next actions you will take and hope the Australian Government will take the right steps in considering human rights and ethics.

We'll be watching with care and kindness and expect that you will soon show justice to the world.

Sincerely yours,

Korea Unwed Mothers & Families Association (KUMFA)
