Dear

This email responds to the question on notice from the Committee Chair, seeking information on the percentage of our membership “that is foreign owned or would qualify as a foreign principal under the legislation.”

We have set out below our full membership list. I have also set out our estimate of banks that would qualify as a foreign principal, by virtue of being a foreign business, based on them being a Foreign Company Registered in Australia. However we have not sought legal advice on this issue, the estimate is based on our own interpretation of the Bill, and the estimate is given without consulting with the member on the exact nature of its incorporation and ownership structure.
