

Respected Sir

I am writing this letter with a heavy heart and so tensed, listening all about the new visa capping bill . i came to Australia in Feb'07 and studied hospitality mgt and commercial cookery from a tafe , not because i wanted a permanent residency here , *i chose this course because i had my keen interest in it . today successfully i have got to a point where am working as sous chef in an Italian restaurant in south eastern suburb of Melbourne* and doing well which i get told from my head chef . i know your concern is to get rid off all the students who studied cookery and are driving cabs , doing security and various other jobs they should not be doing . can students like me who are seriously working in their studied field and are contributing to the market demand of Australia be spared , i got a state sponsorship from live in Victoria in DEC' 08. if you will use this bill on me it will be an end of world for me and a big trauma for me . everything i studied here is of no use in my country but i can use it in here. Australia taught me how to be self dependent without your parents . there are many reasons for me to live here , to be self dependent , to improve my skills , to serve Australia which gave me many thing , taught me the hardship of life . i dont want to go back , i spent my youth here ,i did the right things . please sir listen to my plead your decisions can bring an end to my career , can ruin my past 4 years , i want to continue in my profession . please spare all the genuine chefs and cooks .

your sincerely  
Sumit Sharma
