Senate Select Committee on COVID-19

QoN Number: CV19-28

Subject: Cruise ship ban - Secretary advice

Asked by: Kristina Keneally

Question:

1. Prior to providing written advice to the Acting Secretary for Health on 16 March regarding the 18 March Determination (“The Cruise Ship Ban”), what steps did Secretary Pezzullo take to satisfy himself that measures included in The Cruise Ship Ban would not endanger the Australian community?
2. In relation to question 1, did Secretary Pezzullo:
 - a. Enquire about which cruise ships would be allowed to enter Australia under 5(b) of the Determination? If so, how?
 - b. Enquire about the health status of passengers onboard those ships? If so, how?

Answer:

Prior to providing written advice to the Acting Secretary of the Department of Health on 16 March 2020, Secretary Pezzullo:

- considered the 9 March 2020 Department of Foreign Affairs and Trade updated traveller advice for individuals to reconsider cruise travel;
- considered the Department of Health National Incident Room daily updates (relevantly the update of 11 March 2020);
- discussed the issue with the Australian Border Force Commissioner;
- received a briefing to support his attendance at the National Security Committee of Cabinet meeting on 12 March 2020; and
- reviewed the outcomes of the National Cabinet on 15 March 2020 and the Prime Minister’s subsequent 15 March 2020 press conference articulating the cruise ship ban.

Secretary Pezzullo considered these briefings and advice then directed that letters be prepared. Secretary Pezzullo’s 16 March 2020 correspondence with the Acting Secretary of Health outlined the implementation requirements to effect the National Cabinet’s decision. The Department of Health also used health advice to support Minister Hunt’s consideration of the 18 March 2020 Determination.

In Secretary Pezzullo's correspondence of 16 March 2020, he outlined the importance of the *National Health Protocol for Managing COVID-19 Risks from Cruise Ships*. Further, he highlighted that the Minister for Health retains the discretion under s477 and 478 of the *Biosecurity Act 2015* (Cth) to make decisions relating to the human biosecurity emergency.

Subject: OSB - Social Media Communication

Asked by: Kristina Keneally

Question:

What is the reach of social media communication activity designed to deter people from travelling to Australia by boat since 19 March to 8 May? What was the figure for 19 March to 8 May 2019?

Answer:

Between 19 March 2020 and 8 May 2020, social media strategic communication activity under Operation Sovereign Borders had a total audience reach of 14,509,622 persons across source and transit countries.

It is not possible to provide the statistics for the same date range in 2019 because of the way data was collected at that time, which was on a calendar month basis.
