

Dear sir/madam,

I would like to inquire as to why there is inequity between Sydney and western Sydney when it comes to airport planning, flight paths and curfew.

The people of western Sydney and the Blue Mountains haven't been informed of any flight paths. They have no way to know the impact the airport will make on them. The only thing they know is there will be no curfew for them, yet a curfew exists for Sydney airport. When an idea was put forward for Sydney airport to have its curfew removed, our prime minister said, that wouldn't happen because that's why we are building WSA.

How can this be fair?

Yours sincerely

Jenny Dollin
