

Hi

I would like to provide a submission to the workplace bargaining.

- The bargaining delays have personally affecting me
- I am feeling the pressure on my finances due to no pay rise for at least 3 years
- I believe that the staff morale is at its lowest, and staff will agree to the latest draft enterprise agreement to close the matter as quickly as possible.
- If this happens it would look like “the waiting game, don’t do anything and it will go away” I am talking about people voting yes to anything just to resolve any further delays.
