---

Please consider this email a formal submission by me to the Senate Standing Committee on Community Affairs Inquiry into the National Disability Insurance Scheme Bill 2012.

The current disability system has many problems that need to be addressed.

I have seen young people with no alternative but to be in aged care. This is unacceptable

The main features of the NDIS that will make a difference to the community are:

People with a disability can choose the types of support to use, The ability to receive services when needed and in the way that suits the person, Older parents and families will not worry what happens when they can no longer provide support

The most important services for the NDIS to provide are:

Education support (technology/services/equipment), Support for families and carers, Accommodation options

I support the introduction of the NDIS.

They are proposing to assist young people with disabilities an alternative to aged care facilities

I agree for my submission to be made public

Regards,

Ms Marcia Larkan
