

dear committee members I would like to add this to my submission you have already received

I am 49 on the list and I am happy to have my name shown to all as I am now a bit more aware of what you are looking for . First of priority access card (Gold card) low Interest loans ,housing , health , Education - Training ,Dental , car registration , Power , Low Interest home loans. are some thing that would help many of us and our family's In home help services (eg to refer to Veterans card)

Rec - 39

Royal Commission into the workings of DOC past and present and into so called support services as there is no Support no service for example Forde foundation I was told every grant I did not fit the criteria even with support letters of my needs not even with medical letters from doctors out of 12 rounds I was given a Freezer \$ 600 dollars and the last round a electric Blanket \$ 60 this was only because of a ARC Counselor I no Longer have jumping up and down and showing proof of every letters saying I do not fit criteria . I have even had a letter from **Psychologist** of the need to Keep helping me get up I was told NO. This has always being the same thing even with . as late as April this year I rang and ask my self for help and was told NO.

Rec - 11

F.O.L files would help lifting these black marks Give us the truth .help to get our Medical Files will help us big time I know mine are still there but I can not get they money to pay for them.

Psychologist told me this would of helped me more when he was helping me witch ARC paid for most of time that did help me most of that is lost now.never to be fixed

the Forde Inquiry did not cover those of us that where put in mental hospitals to be experimented on and it did not cover those of us that where in foster care . There was an inquiry into abuse of Children in foster care in 2004 I was a part of this and I had to read from peace of paper that did not say much of anything as at the time I did not know I could speak of what I know if it was not for a few friends like Sue Tree week that did support me at the Inquiry in Brisbane 2008 that is no longer there. For many years now so that I get to understand what is need Allan Allway has all ways explained to me.

If it was not for Diane Tronc telling me what was need now I would not have being adding this to my submission.

The QLD Government has given us a so called apology for being experimented as children I feel this has not being address as it was into part of our so called Redress nor was foster care but yet Mr Rudd in clued foster care and we believe this has not been addressed and not picked up by the state of QLD nor a part of apology Rec - 16 in lost of Innocent and Forgotten Australians report .

thank you

Wayne Bradwell
