Subject: sub951Submission to the Inquiry into the National Disability Insurance Scheme Bill 2012
Date: Thursday, 17 January 2013 2:45:38 PM

Please consider this email a formal submission by me to the Senate Standing Committee on Community Affairs Inquiry into the National Disability Insurance Scheme Bill 2012.

The current disability system has many problems that need to be addressed.

Not enough money given to the people with the greatest needs

The main features of the NDIS that will make a difference to the community are:

Better access to mainstream support and services, More rights for people with a disability, The ability to receive services when needed and in the way that suits the person

The most important services for the NDIS to provide are:

Therapy and allied health services, In-home care and domestic assistance, Positive behaviour support and psychological services

I support the introduction of the NDIS.

Just look at the system working in the UK. Soooo much better than Australia because their Government cares for ALL the voters.

I agree for my submission to be made public

Regards,

Mrs Jenne Walter
