

I want to be clear that just because submitters and witnesses express support for broader access to vaping, or it being legally available as a commercial product, does not necessarily mean they are in receipt of financial or other support from companies that have a financial interest in the sale of tobacco or vaping products. Those submitters and witnesses who are in receipt of this kind of support should also have their arguments considered on their merits. However, it is in the interests of transparency that declarations about financial or in-kind support are requested.

Are you aware of Australia's obligations under Article 5.3 of World Health Organisation's Framework Convention on Tobacco Control "*in setting and implementing their public health policies with respect to tobacco control, Parties shall act to protect these policies from commercial and other vested interests of the tobacco industry in accordance with national law*"?

Yes

Australia is obliged under its commitments to FCTC under Article 1(d) to include harm reduction in its policy response to tobacco but does not do so.

Australia does not attempt to object to governments owning substantial investments in tobacco companies attending WHO COP meetings although this is a flagrant breach of FCTC 5.3.

ATHRA is completely independent of Legalise Vaping Australia but we share a common goal.

Both organisations aim to reduce smoking-related deaths in Australia ASAP by making it easy for Australian smokers to switch to much lower risk nicotine products such as vaping nicotine.

We have discussed a range of issues and shared information with them from time to time. We did not discuss our submission.
