

the Senate Standing Committee on Community Affairs,
Submission,

We must have equality in paid parental leave payments set
to the minimum wage, ideally for 18 weeks, for "paid workers
and "stay at home" Mums.

In a nation wide poll conducted recently, 64% of
Australians favour paid work and stay at ^{home} mums benefitting
equally from government support regardless of the family's
childcare choice.

Mary B. Mc Inerney (Mrs)
