Committee Secretary

Senate Standing Committee on Environment, Communications and the Arts

Department of the Senate

PO Box 6100

Parliament House

Canberra ACT

2600

Dear Dr. Holland,

Thank you for sending one extract from submission to the inquiry into forestry and mining operations on the Tiwi Islands.

I note the comments that my marriage with John Hicks compromises my independent professional credibility. It is a profession that I continue and am still working as a television journalist.

I grew up in a country where women's opinion were not equally valued with men despite there being 95 percent employment of women.

I thought and hoped those times had been changed.

Unfortunately I can not be present when the Senate Committee will be on the Tiwi Islands because I am on an assignment in Europe.

My professional qualifications include

1984 – 1989	Studies at Friedrich-Schiller-University, Jena, Germany German literature and language Humboldt-University, Berlin, Germany Film history/dramaturgy
1987	Practical Training Film Studios Babelsberg, Germany
1989	Master's degree German Studies
1989 - 1991	Research fellowship Theater School, Leipzig, Germany

Writer / Director
