

Further, the PC noted that the combined coverage for all support varied significantly between jurisdictions showing 'that a considerable majority of the potential population do not receive any such services'³⁷ –Table 7 below.

Note: (i) Totals may not sum the components since individuals may have accessed more than one service group and/or in more than one jurisdiction.

(ii) the mix of services is different within categories across jurisdictions. For example, in Victoria, the Accommodation Support figure includes a wide range of quite different accommodation types – large residential/institution, hostels, group homes, attendant care/personal care, in-home accommodation support, alternative family placement, other accommodation support. Data for Vic, Qld and WA includes Psychiatric Disability Rehabilitation and Support Services activity which is not included in other jurisdictions.
