The AMA supports the Public Health (Tobacco and Other Products) Legislation 2023, which aims to discourage people from smoking and vaping. To reduce the disease, disability and premature death caused by smoking and vaping, the AMA (and the medical profession more broadly) is committed to efforts that seek to continually reduce the number of people who smoke and vape.

The AMA provided feedback to the Department of Health and Aged Care's consultation on the Public Health (Tobacco and Other Products) legislation package. The AMA recommends that the Committee refer to the AMA's [submission](#) to this consultation for further detail (see attached).
