I support the Health Insurance Amendment (Medicare Funding for Certain Types of Abortion) Bill 2013

My reasons are that:-

1. I do not believe that Medicare funding should be used for any purpose which is discriminatory and selectively aborting female children is discriminatory;
2. I don't believe that, as a society, we should interfere with the balance of nature in regard to whether male or female babies are conceived and born and, even if I did, I do not believe that Medicare funds should be used for the purpose;
3. I do not support the use of Medicare funds to enable family balancing. This is unnecessary and undesirable from a society point of view and is not in the public interest.

John Kennedy
