Submission to the Senate Select Committee on School Funding

Rural and remote k-12 central school in the northwest riverina region. It is 110km northwest of Griffith with a town population of just over 1000 people and approximately 170 students

Programs and resources can be used to enhance the student learning with students having access to resources and opportunity large cities schools do.

We could use funds to up skill teachers in these areas. Fund necessary resources needed to implement different programs

Teachers can access a greater number of professional development as it is quite expensive with the distance needed to travel

We can implement a range of staffing, resources and time to improve student learning particularly in literacy and numeracy.

Submitted on behalf of Hillston Central School
