

**Dear Senator,**

**With the recent decision to cut *Arts Nation*, I am writing to request a full Public Inquiry of the ABC.**

**I would also like you to address the following concerns I have.**

1. The ABC should remain obligated to provide quality, Australia produced, culturally relevant programming.
2. Television has become an important medium for expressing arts and culture. Without a station obligated to representing Australia perspectives, I fear that it may impact negatively on our community
