

Budget Colour Printers

12/4/10

Attn Senate

On 14 Feb this year one of the registered Assessors (Ass No HO53571) ordered 2,000 2 sided A5 colour Flyers to be printed by my business. The job was completed and ready for pickup on the 18/2/10. The flyer was advertising the Green Loans Interest Free Loans. When I contacted the assessor he wanted to order Business cards and asked if he could pick up flyers when Business cards were ready, to which I informed him it would be ok. I proceeded to produce a proof for Business card. I emailed a proof to him to which there was no reply and I have called him (mobile & land line numbers) and left messages on message bank to which there has been no reply. I do not have an address for the assessor only 2 phone numbers so I searched the internet to contact Green Loans Department and found out that the Green Loans Interest Free loans have finished. As the senate knows the interest free loans came to a sudden end, and I know now why Assessor does not want flyers and is not contacting me as the flyers are useless to him. The Green Loans department will not release to me the assessors address only his phone numbers which I have (privacy act?) I am \$380 out of pocket due to the early cancellation of the interest free loans.

I would appreciate if the senate could help me out in this situation.
I am a small 1 man business and \$380 is a lot of money to me.

Yours sincerely

Walter Dobrowolski
